What do you get when you mix a Louisiana Cottonmouth (Barnaby) with an Arizona Songbird (the Butcher)? You get highly skilled, hard-striking, heritage electric guitar combined with soulful, rich, and powerful vocals. Barnaby and the Butcher (Tucson, AZ) play the broad genres of Roots Rock and Southwest Americana. Their originals and covers run the gamut of classic country, dark country, blues, and rock; which they perform with a style that evokes deep nostalgia while feeling entirely new. While playing internationally as individuals for decades, this is the project that finally allows them to create and play together.
